"These small behind the ear hearing aids are so comfortable to wear, I forget I have them in! I tried custom fit hearing aids before and was so determined to get used to them. I forced myself to wear them at least until 6:00pm. Steve switched me over to these open fit hearing aids, and now, I wear them all day. I'm not looking at the clock waiting to take them out!! Not only that, background noises don't bother me with these aids. They are so small, everyone is surprised I wear hearing aids and the service could not be better! Steve has been so receptive to me and the problems I had with my other hearing aids. I've recommended my friends to go to Ear, Nose, and Throat Specialists."

- Carole Shupe
