WHAT DOES HAVING IT **ALL**
SOUND LIKE?

Moxi 3G helps you hear clearly, even when
distracting background noise is high.
It's all thanks to SmartFocus™, and it's
only available from Unitron.

SmartFocus™ puts the spotlight on speech

You can think of SmartFocus as putting
the spotlight on speech in a noisy
listening environment. It illuminates
speech from in front of you, while the
sounds you don't want to hear fade
into the background.

Discreet and easy Smart Control

An optional hand held remote control lets you
quickly adjust SmartFocus and other functions,
such as program changes and volume control.
